

Prayer Den

Sometimes we pray in big spaces with lots of other Christians and sometimes we have private prayer with just us and God. A prayer den gives you a private space for your prayers. You can build your den however you want; as simple as two chairs and a sheet or a pop up tent or something elaborate. Its your space so build it how you like, without getting into trouble with your parents so make sure you are aloud to build a den where you wanted. You might want some pillows and blankets to make it comfy and a torch or light so you can see and pen and paper if you like to draw or write while you pray, you might want your bible with you as well.

Once you have your prayer den set up you can start praying. You can be quiet or speak out loud, use prayers like the Lord's prayer and bible verses or just talk to God. This is your prayer den and your relationship with God so you can chose how to use the den and build your relationship
